

Jeff Palmer

Secretary

I've been an NMRA member since 2007, not long, but I've been interested in trains since I got my first Lionel train Christmas many decades ago. My first layout was in N scale in my garage about three decades ago. Like all first layouts, it was a great teaching tool. Life happened and I helped to raise two great kids. Baseball, soccer, RC cars, real cars, and a Master's Degree in Information Technology - Security consumed me for most of those years, but I never lost my love of trains, and I made my way back. Now, I model in HO and I'm on my way to getting my MMR; five APs down (Volunteer, Official, Author, Cars, and Structures) and four underway (Civil, Electrical, Scenery, and Dispatcher). Since taking on the Web Chair position in 2012, I've had the privilege of stepping up to LSR Secretary in 2014 when life got in the way of having fun for Mike Bodak. Since then, the LSR has gone through a number of changes and issue; i.e. becoming a 501(c)(3), the 2015 Convention, and other trials. I would like the opportunity to continue to serve the LSR. Please vote for me in the upcoming election.
